

Rocking Chair Assembly And Use www.ecofurn.eu

Content of the box:

Short screws x 4
Bolts x 8
Long screws x 12

Side parts x 2
Crossparts x 2
Sitting part x 1
Back part x 1
Curvy legs x 2

Insert the long screws (8 pcs) to each hole in the lower parts of the side parts.

Adjust the crossbars between side parts, tighten the screws.

Lift the skeleton of the chair up and install the sitting part with short screws (4 pcs).

Install the back part with short screws (4 pcs).

Turn the chair upside down and install the curvy legs with bolts (8 pcs). Make sure that the longer parts are behind the chair.

Use the tool in the plastic bag when tightening the screws and bolts – use an electric screwdriver only, if You are a professional - we cannot reimburse the damages caused by using an electric screwdriver. Remember to re-oil the wooden chair with good quality wood oil regularly, depending on the weather and moisture conditions. Also check the screws regularly, tighten when needed. Store in a cool and dry place, clean thoroughly before storing. Don't let children play with the chair.
