The products can be customised with customer's own logos, pictures or texts and packed individually to be sold in stores, tourist shops, online and as business gifts.

For over 15 years, EcoFurn® has been striving to manufacture ecological products from solid Nordic wood. Inspired by the exceptional nature of Finland, we combine decades of experience in handicraft with practical yet stylish design.

EcoFurn® products are attractive, durable, versatile, sustainable, fixable, recyclable, transportable and handy for everyday use

EcoFurn® manufacturing premises are optimized for no-waste thinking: we refine all our production leftovers at our factory. Our production process uses all the wood beneficially turning the residues to briquets, even the sawdust to pellets, which both can be used for heating
